While there are no major changes to information contained in the current Product Disclosure Statement (PDS), nor the way we manage the Funds, the purpose of issuing the SPDS is to add further detail to the Specialist Australian Small Companies Fund's 'Fund Profile' section, specifically, regarding the way we describe the assets the fund may invest in, as shown below.

Full details of the changes can be found in the SPDS. As always, we recommend you read this document together with the original PDS to understand the main benefits and risks of investing, along with other features of the Funds.

Indirect investors should also review the Target Market Determination (TMD) for a Fund before making an investment decision to consider whether a Fund is appropriate for them. A TMD in respect of a Fund is available at amp.com.au/investments-tmd.

Specialist Australian Small Companies Fund – Investments

The Specialist Australian Small Companies Fund (the 'Fund') primarily invests in small companies listed on the ASX. 'Small companies' are considered to be those outside the top 100 listed companies, by market value.

The Fund may be invested in unlisted companies that we believe are likely to be listed in the next 12 months on the ASX.

The Fund may also invest up to 10% in cash. However, in certain market conditions the Fund may hold higher levels of cash.
