

ContentsManaged investment options2Listed Securities8Standard Risk Measure12Other important information13

This document outlines the investment options available through the WealthView eWRAP Super/Pension Product Disclosure Statement (PDS Part 1) and the WealthView eWRAP Investment Investor Directed Portfolio Service (IDPS) Guide.

WealthView eWRAP offers a range of investment options featuring:

- over 200 managed funds
- term deposits
- exchange traded funds (ETFs) and exchange traded commodities (ETCs)
- listed investment companies (LICs) and listed investment trusts (LITs)
- Australian real estate investment trusts (AREITs), and
- Listed securities on the Australian Securities Exchange (ASX).

Before selecting an investment option, you should refer to the fees and costs as set out in the underlying investment option's PDS.

i This investment option is closed to new investors. Existing investors that hold the investment can continue to purchase additional units

ii This investment is defined as an illiquid asset. All redemptions from this investment will be processed in excess of 30 days, at such time as the investment manager, in its discretion, determines. For an explanation of illiquid investments please refer to the description of 'Liquidity risk' under the section 'Other important information' in this document.

iii This investment option is only available through a financial adviser.

- iv For information on the current Fixed Term Deposit (FTD) terms, conditions and restrictions that apply, please refer to the FTD Product Disclosure Statement. Please note that funds cannot be withdrawn from an FTD in any circumstances before the term ends. A maximum of 70% of the value of a pension account can be invested in FTDs.
- * This option is only available for eWRAP IDPS members.
- 1 For further information on the Standard Risk Measure, refer to the 'Standard Risk Measure' section of this document.

Listed Securities

You are able to invest in securities listed on the ASX. Selected listed investment companies and listed property trusts are available for investment.

If you are an Investor of the Investor Directed Portfolio Service (IDPS) you can invest in any direct equity or unit trusts listed on the ASX with the exception of unlisted managed funds.

For superannuation and pension members, you will have access to the following listed securities:

- shares currently listed in the S&P/ASX300 index
- selected LICs and LITs
- A-REITs listed on the ASX all ordinaries index
- selected hybrids (ie convertible notes and preference shares)
- selected ETFs and ETCs
- selected fixed interest securities (ie corporate bonds and floating rate notes), and
- certain sub-classes of shares, initial public offerings (IPOs), share purchase plans (SPPs) and other securities that satisfy the Trustee's approval criteria.

Securities listed in the S&P/ASX300 are subject to change, impacting the ability to invest in securities that no longer fall in the S&P/ASX300.

The trustee may periodically add or remove listed securities available to superannuation and pension members without warning. We recommend you obtain the latest version of this document prior to making an investment decision.

When purchasing listed securities, additional costs will be incurred. These costs, which include brokerage fees, will be directly debited from your account.

Standard Risk Measure

About the Standard Risk Measure

The Standard Risk Measure (SRM) is a common risk descriptor used by superannuation funds.

It is based on guidance from the Australian Prudential Regulation Authority (APRA) to allow investors to compare managed funds that are expected to deliver a similar number of negative annual returns over any 20-year period.

We have introduced the SRM in accordance with the recommendations from the Financial Services Council (FSC) and Association of Superannuation Funds of Australia (ASFA).

SRM descriptors

Each managed fund listed in the WealthView eWRAP Super/Pension Investment Options document has been assigned a SRM.

The table below sets out the SRM labels used for each managed fund based on the estimated number of negative annual returns that a managed fund may experience over any 20-year period.

Risk band	Risk label	Estimated number of negative annual returns over any 20 year period
1	Very low	Less than 0.5
2	Low	0.5 to less than 1
3	Low to medium	1 to less than 2
4	Low to medium	2 to less than 3
5	Medium to high	3 to less than 4
6	High	4 to less than 6
7	High to very high	6 or greater

For example, managed funds with a risk band of 5 have a medium to high risk label and may experience between 3 to less than 4 years of negative annual returns over any 20-year period.

Limitations

The SRM is not a complete assessment of all forms of investment risk and does not replace the need for financial advice when constructing a managed fund portfolio. For instance, it does not detail what the size of a negative return could be or the potential for a positive return to be less than an investor may require to meet their objectives. Further, it does not take into account the impact of administration fees and tax on the likelihood of a negative return.

The SRM is not a comprehensive account of the risks of investing and investors should consider these risk labels in conjunction with the different risks of investing that apply to their investments. Investors should still ensure they are comfortable with the risks and potential losses associated with their chosen managed fund(s).

Methodology

The methodology used for calculating the SRM follows the FSC/ASFA recommendations and is in line with market adopted practices. You can also contact your financial adviser or the Customer Relations Team on 1800 006 230 for any queries on the methodology.

Changes to the SRM

For each managed fund, any significant changes to market conditions may alter the SRM from time to time. In addition, any changes to the methodology used (including any regulatory changes) may also alter the SRM results.

We will generally review the SRM each year.

Differences between each provider's SRM

Investors should be aware that the SRM labels used for each managed fund are based on our assessment and may differ to those assigned by other providers. The differences are generally due to the methodology used in calculating the SRM.

Other important information

This is the Investment Options document for WealthView eWRAP – Super/Pension which is part of the Wealth Personal Superannuation and Pension Fund ABN 92 381 911 598 (the Fund) and should be considered together with the current WealthView eWRAP – Super/Pension PDS Part 1 and with any subsequent communications provided by the Trustee or Operator. It is also the Investment Options document for the Investor Directed Portfolio Service (IDPS) known as WealthView eWRAP - Investment. The Operator of the IDPS is NMMT.

This document is jointly issued by N.M. Superannuation Proprietary Limited (NM Super) ABN 31 008 428 322, AFS Licence No. 234654, and NMMT Limited (NMMT) ABN 42 058 835 573, AFS Licence No. 234653.

Asgard Capital Management Ltd ABN 92 009 279 592 AFS Licence No. 240695 is the administrator and custodian of WealthView eWRAP.

This publication has been prepared to provide general information only and does not take into account the financial objectives, situation or needs of any particular person. It is not intended to take the place of professional advice and you should not take action on specific issues in reliance on this information.

Before making an investment decision, you need to consider (with or without the assistance of an adviser) whether this information is appropriate to your needs, objectives and circumstances.

Please contact your financial adviser for information about the shares available through your account. From time to time, we'll add or remove investment options. We recommend you consult your financial adviser before selecting the specific investment options for your investment strategy.

Past performance is not necessarily indicative of future performance. Please refer to the underlying fund manager's PDS for further information relating to the underlying investment options.

The AMP group and their associates derive income from issuing interests in the product, full details of which are contained in the PDS Part 1 and any other subsequent communications from the Trustee or Operator, as applicable.

Unless specifically stated, the repayment of capital or performance of our products are not guaranteed.

This information is provided for persons in Australia only and is not provided for the use of any person who is in any other country.

Removing investment options

We may, from time to time, redeem or close certain investment options where the underlying investment is either terminating or being closed by the fund manager. We may also decide to redeem (terminate) or close certain investment options as part of our ongoing review and due diligence.

Where this occurs, we will normally provide you with at least 30 days' prior notice. Prior to receiving any new instructions for terminated investments, we will pay the proceeds of the redemptions into your Cash Account. Where we cannot provide you with at least 30 days' prior notice (due to circumstances

outside of our control or in circumstances where we believe that there is an immediate investment risk), we will provide you with notice as soon as practicable.

Identifying investments

The APIR codes used in this document identify the underlying investments that we will purchase on your instruction.

The APIR code can assist you in obtaining the PDS for the underlying investment and comparing with other investment menus. Please refer to the underlying fund manager's PDS for further information relating to the underlying investment options

Underlying managed investment options

Please refer to each underlying investment manager's PDS for detailed information relating to the underlying managed investment options.

PDSs for underlying managed investment options do not constitute an offer or invitation to subscribe to or buy any of the securities offered by the fund managers of investment options. In addition, the fund managers of those investment options have not authorised or caused the issue of this document. The fund managers of those managed investment options, their respective officers, holding companies and trustees do not guarantee the capital invested by members of WealthView eWRAP – Super/Pension or WealthView eWRAP - Investment or the performance of the plans and investment options generally.

The performance, the payment of any particular return or any increase in the value of the assets acquired using the investments listed in this document are not guaranteed in any way.

If you would like a current copy of this document, you can call the Customer Relations Team on 1800 006 230 or speak to your financial adviser.

Management Costs

Management costs, transactional and operational costs will generally be incurred when dealing with the underlying assets of an investment option. They include brokerage, clearing costs, stamp duty, the buy and sell spreads of any underlying funds and certain costs associated with holding derivatives or direct investments in real property. In addition some investment options that have underlying investments that use credit facilities to gain increased asset exposures will also incur borrowing costs. Borrowing costs include interest, government charges and debt advisory costs.

Before selecting an investment option, you should refer to the fees and costs as set out in the underlying investment option's PDS.

Please contact your financial adviser for a copy of the relevant PDS for the underlying investment option or contact the relevant fund manager for details.

Additional contributions

After you become an investor, each time you make additional contributions to a managed fund investment option you may not have the most recent underlying fund manager PDS or have

been notified about material changes or significant events relating to the investment options you have selected. You can access the most up-to-date PDS for the managed fund investment options you have selected by accessing *Investor* Online at **investoronline.info**.

Liquidity risk

Liquidity risk is the risk that your investment cannot be bought, sold, cashed, transferred or rolled over as quickly as you might wish. Different investments have different transaction processing times and thus different levels of liquidity risk.

Once we receive all the necessary information your request will generally be processed within 30 days for investment switches and withdrawals.

Some investments, referred to as 'illiquid assets', require a longer period to be redeemed. This longer redemption period is imposed by the underlying investment manager because some or all of the assets within the investment are illiquid. Account fees will continue to be charged while invested in illiquid investment options. We have labelled these investments as 'illiquid investments' in the Investment Options document which also shows the maximum redemption period for each option.

For more information, you should read the PDS for your chosen managed investment funds.
